5 litre **213 783**

10 litre **213 784**

FEATURES	BENEFITS
<ul style="list-style-type: none">• Easy to apply	Can be put in a foot bath or sprayed directly to the hoof using a low pressure sprayer
<ul style="list-style-type: none">• Hardens the hoof	Contains Zinc Sulphate which helps to harden the hoof and prevent ailments occurring from walking on hard tracks and getting soft hoofs in the wet
<ul style="list-style-type: none">• Anti fungal and anti bacterial	The copper sulphate will help to prevent the establishment of bacteria and fungus that could cause hoof ailments
<ul style="list-style-type: none">• Can be used regularly	There is no build up of chemicals and no milk withholding period which allows Hoof-fit liquid to be used regularly during the wet period
<ul style="list-style-type: none">• Natural	Non antibiotic, non toxic, and will not affect the levels of copper or zinc in the soil

PRODUCT INFORMATION

Hoof-fit topical liquid is generally used as a spray-application for the purpose of reducing incidence of foot ailments particularly in dairy cows, although it is also a very effective product for use on sheep and goat hooves. A typical way to use the product is with a low-pressure 'garden' sprayer. Most effective application is into the back of the claws where the treatment will run down into the inter-digital cavity. Weekly repeat treatments are recommended in high-risk periods. Use Hoof-fit liquid at 50% dilution for initial treatment, and then reduce to 20% dilution for follow-up treatments. Regular use of Hoof-fit liquid will ensure best hoof health at all times.
