

TRAP....

Bait Box Eurofarm

mice	211 409	\$5.95
rat small	211 408	\$22.95
rat large	211 407	\$25.95

These plastic Eurofarm bait boxes feature key lock (key supplied) to ensure safety for children and pets. Key is removeable.

Bait Station Pet-Safe

3-Space	211 237	\$45.95
5-Space	211 236	\$74.95

Sliding roof, weatherproof bait station. Base section has 3 or 5 bait compartments that are inaccessible by pets, children or any larger-than-rodent animals. Bait is put in the centre compartment only. Takes standard 40mm x 50mm bait blocks. The other compartments catch spillage, preventing any poison exiting the station. Rodents access bait and depart to die. All metal, powder coated. Locking pin prevents accidental opening. Dimensions: 3-space - 35cm long x 15cm wide x 10cm high. 5-space - 51cm long x 15cm wide x 10cm high.

ON SPECIAL

Trap KBL Strangle

211 195 ~~\$79.95~~ only \$59.95

The KBL Strangle Trap is baited on the internal trigger rod. It is then loaded by use of the rear pull string, to draw the strangle-bar down over-centre. The trap is then secured to the ground with the loop-head pins supplied, or can be placed in a tree if required. Death is very quick when the animal puts its head in the hole. Dimensions: 26cm high x 20cm wide x 21cm deep.

Trap 213 172

Trap Double-Entry Folding

small (62cm)	211 233	\$169.00
medium (100cm)	212 264	\$269.00
large (130cm)	213 172	\$429.00

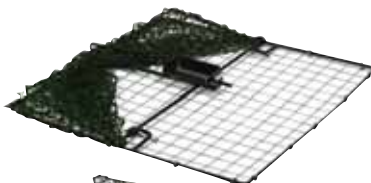

The feature of these traps is that the animal to be caught is deceived by the clear unobstructed view through the open doors, with just the centrally-placed bait visible. As soon as the bait is moved the guillotine-type doors at both ends close, trapping the animal. A good feature is that the animal is unharmed and can be released if not the intended catch. All metal construction. The traps are supplied folded flat, and are easily erected without tools required. Dimensions: Small - 62cm long x 21cm wide x 21cm high. Medium - 100cm long x 30cm wide x 30cm high. Large - 130cm long x 36cm wide x 47cm high.

Feral Cats and Possums

62cm	211 231	\$129.00
------	---------	----------

Single-entry trap with central bait tray. Movement of the tray drops the guillotine-style door, trapping the animal. Bait can be meat or fresh entrails. (Also see attractants these pages.) Dimensions: 62cm long x 21cm high x 21cm wide. All metal construction.

Small Bird trap half activated

Small Bird

211 229	\$229.00
---------	----------

The Small Bird trap should be set up between 1.6m and 1.8m above ground on a wood pole or post. Suitable bait is placed in the small central tray (grains or bread, etc). As soon as the bird lands and moves the bait tray, the spring loaded mesh hoop flies over trapping the bird which is not killed or hurt. Dimensions are 50cm x 45cm. Painted steel construction with nylon capture mesh.

Mouse Cage

12cm	211 228	\$7.95
------	---------	--------

Simple wire cage trap-door bait trap that catches mice live. Metal cage with wood base. Dimensions: 12cm long x 5cm wide x 6cm high.

Rat Cage

28cm long	211 227	\$19.95
-----------	---------	---------

Simple wire cage trap-door bait trap that catches the rat live. Metal cage with wood base. Dimensions: 28cm long x 10cm wide x 10cm high.

Mouse Trapdoor

23cm x 11cm	211 226	\$44.95
-------------	---------	---------

This wire cage trap incorporates a clever non-return trap door that ensures no escape. Bait is placed on central tray. Rear door opens for placement of bait, and easy removal of captured mice. This trap can catch several mice before needing to be emptied. Dimensions: 23cm long x 14cm wide x 11cm high. All metal construction.

Rat Trapdoor

42cm x 18cm	211 225	\$59.95
-------------	---------	---------

This wire cage trap incorporates a clever non-return trap door that ensures no escape. Bait is placed on central tray. Rear door opens for placement of bait, and easy removal of captured rat. This trap can catch more than one rat before needing to be emptied. Dimensions: 42cm long x 24cm wide x 18cm high. All metal construction.

Rabbit Hole

42cm x 18cm	211 223	\$37.95
-------------	---------	---------

This wire-tube trap is best used directly in the burrow hole to catch the emerging rabbit. Other burrow exits should be blocked. The one-way door is propped open with a straw so it will close as soon as the rabbit enters. The live rabbit can then be disposed of. Dimensions: length 81cm, diameter 13cm.
