

## Measuring Scoop

250ml 212 230 \$4.65

Handy tabbed scoop with internal volume markings. Made of strong plastic material to withstand heavy use. Height 10cm.

## Beaker Three Corner

50ml each 200 388 \$1.55  
400ml each 200 386 \$2.55  
1000ml each 200 384 \$3.95

The advantage of a three-corner beaker is the accuracy of pouring into small openings. The 50ml beaker has 5ml graduation marks, the 400ml 20ml marks and the 1,000ml 50ml markings. Made of flexible polypropylene.

**PRICE REDUCED**

## Measuring Cylinders

100ml 213 814 ~~\$5.95~~ \$3.95  
250ml 213 811 ~~\$6.95~~ \$4.95

Handy measuring cylinders for mixing or dispensing small amounts of liquid. Both calibrated at 5ml intervals. Clear plastic.

**PRICE REDUCED**

## Measuring Jug

250ml 213 812 ~~\$9.55~~ \$6.95  
500ml 213 813 ~~\$11.95~~ \$7.95  
1 litre 204 540 ~~\$12.95~~ \$9.95  
3 litre 204 542 ~~\$20.95~~ \$14.95  
5 litre 204 543 ~~\$29.95~~ \$22.95

Not all measuring jugs are created equal. Our Fjord jugs are made to suit industry, rather than just the kitchen. They are highly chemical-resistant, food grade polypropylene, and they are easy and safe to hold. Fjord carefully researched the ergonomics of handling a jug of potentially dangerous liquid. Their handles suit a gloved hand as well as a bare hand - a very important feature. When using a Fjord jug full to specified volume, there is still heaps of freeboard. And the spout pours precisely. And the measurement marks won't rub off. So buying these quality jugs is worth more than their price.

## RAIN GAUGE...

## Rain-O-Matic 4in1

complete set 211 192 \$165.00

This wireless device is a remote-location rain gauge, plus outdoor and indoor thermometer, plus clock. There are three components: outdoor rain collector, outdoor temperature sensor and indoor display and control unit. Transmission range from outdoor sensor and rain collector is up to 30m. Rainfall collection periods can be selected (eg. one month). The display unit then gives daily and total-to-date rain totals. The rain collector is self emptying, frost-proof and does not need any day-to-day attention. All components are battery operated. Full instruction book supplied.

**RAIN GAUGE PLACEMENT**  
For accurate readings the gauge should be placed at a distance from any trees or buildings equivalent to twice their height.

**New**

## Ground Level

205 309 \$15.95

These plastic rain gauges incorporate a ground spike, so can be simply pressed into the ground again after removing to read. The gauge has an 8cm-diameter cup and is 45cm long overall (including ground spike). Gauge concentrates the catchment into an easy-to-read narrow cone. Reading up to 40mm of rain.

## Wind Strength Meter (Anemometer)

212 769 \$199.00

New spray-application rules require documentation of wind strength and direction at time of application. This handy pocket-size anemometer is ideal for determination of wind strength. This instrument gives speed in mph, kph, knots, feet/min, meter/sec and Beaufort. It also gives air temperature in °C or °F. Back-lit. Auto power-off.

## PRICE REDUCED Classic

213 810 ~~\$32.50~~ \$22.95

Made by Fjord Manufacturing, this rain gauge is made to stand the rigorous New Zealand outdoors climate. The special UV resistant plastic formula and after-moulding annealing process, ensure this product will last many years of sun and rough use. Quick and easy to install with the multi-hole mounting plate. Simply screw or nail the plate to the appropriate post or pole, and slip the gauge onto it. Full instructions included. Length 30cm o.a. Measure to 150mm of rain.

## Duct Tape 9m Roll

blue 211 447 \$2.95  
green 211 448 \$2.95  
red 211 451 \$2.95  
yellow 211 456 \$2.95

Highly-adhesive 48mm-wide cloth tape in 9m rolls. Great general purpose tape around home or farm. Supplied each.

**NB:** This tape is not suitable for use as Leg & Tail tape.

## Rain Maxx

213 827 \$54.95

Rain or irrigation water initially collects in the inner tube, with excess amounts spilling to the outer tube. This allows measurements up to 280mm of rain. Manufactured by Fjord, as Classic gauge above. Length 38cm o.a.
