

## BULL RING....

*Note: The best time to ring a bull is when it is about 7 - 10 months old, using a small ring. Change to a medium about 18 months, then to a large at 30 months. Bull rings should not be reused.*

### Copper Hayes

small 64 x 9mm	207 968	\$14.95
med 70 x 9mm	207 969	\$14.95
large 76 x 9mm	207 970	\$14.95

Hayes Veterinary own-brand self-piercing copper bull rings. Long lasting, totally proven in use. Thumbscrew-type locking pin, broken off when tight, reveals cross-slot for screw driver. Dimensions are o.d.

### Stainless Hayes

small 64 x 9mm	207 693	\$14.95
med 70 x 9mm	207 694	\$14.95
large 76 x 9mm	207 695	\$14.95

Hayes Veterinary own-brand self-piercing stainless steel bull rings. Longer lasting than copper especially on hard ground. Proven in use. Thumbscrew-type locking pin, broken off when tight, reveals cross-slot for screw driver. Dimensions are o.d.

### Bronze "Pierceasy"

small 66 x 8mm	200 933	\$23.95
dairy 77 x 8mm	200 930	\$24.95
med 77 x 10mm	200 932	\$29.95
large 88 x 11mm	200 931	\$34.95

Our bronze *Pierceasy* bull rings come from Wagner USA, where they have been brand leader for many years. Patented *Pierceasy* system is what it says - safe and easy without applicator tools. All Wagner rings are supplied with a slotted and an Allen brass screw plus an Allen key, to give the user a choice of screw type to use. Dimensions are o.d.

### Copper Hiatt

small 64 x 8mm	200 941	\$27.95
med 70 x 9mm	<del>200 939</del>	<del>\$29.95</del>
large 75 x 9mm	200 937	\$32.95

Genuine UK-manufactured Hiatt-brand self-piercing copper rings. Long lasting in the animal. Supplied with convenient finger-grip screw-in pin, which is broken off when firm for fingers, and then finished tightening with a standard screw driver. Dimensions are o.d.

### Bull Ring Applicator Economy

200 928 \$32.95

Makes ring application quick and easy. This applicator will do rings up to 77mm x 10mm (maximum outside diameters), with or without perimeter locating pin hole. Length 28 cm o.a.

### Bull Nose Punch

standard	200 927	\$42.95
quality	200 926	\$139.00

Use to pierce the bull's nose cartilage prior to insertion of nose ring, making the job more animal friendly, and reducing stress and risk of accidents. We recommend use of the quality version which is of superior manufacture and function. Length: Standard 25cm. Quality 27cm.

### Ear Tag Cutter

economy	213 407	\$6.95
quality	204 109	<del>\$19.95</del> \$17.95

Very handy knives for removing ear tags, cutting twine, or many other uses where a safe razor-sharp cutter is needed. Razor-sharp blade in plastic handle. Economy is 16cm long and quality is 22cm long with good finger grips.

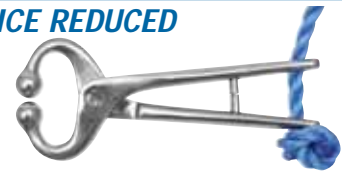

### Oestrus Detector Draminski

cow 204 915 \$995.00

The Draminski electronic detector indicates oestrus by changes in vaginal mucous electronic resistance. No particular skill or training is required to use these devices. One or two readings should be taken over successive days until ovulation is indicated by the fall and the subsequent sharp rise in resistance readings. By this method ovulation can be identified down to a few hours for optimum artificial or natural breeding results. As well as detecting optimum breeding time, the detector can be used at the next predicted cycle time to confirm either gestation in progress, or ovulation. This system is ideal for animals having "silent" or unusual heat cycles, and can dramatically reduce management and insemination costs. Rinse and dry between animals. Powered by 9-volt battery.

## BULL HOLDER....

PRICE REDUCED

### Pliers

213 829 ~~\$41.95~~ \$39.95

The old favourite bull holder you don't need a degree to work. Supplied with 1.5m of good quality poly-rope. Length 20cm. Stainless steel.

### Pliers Chain-type

200 916 \$39.95

This model features a chain closure, and locking hook, for quick and easy action in all conditions. Chain is 40cm long, with large end-link for attachment of rope (not supplied). Pliers are stainless steel, length 20cm.

### Spring Close

200 922 \$26.95

Our most popular style of bull holder, being easiest to attach and remove, as well as a compact style. Very reliable. Length 11cm. Width 7cm.

### Spring Close Stone

200 923 \$36.95

Made in USA by Stone Mfg Co., this is a good quality easy-to-use bull holder (or show lead as it is called in the US). Corrosion-resistant die-cast zinc. We think this one is worth the small extra cost. Dimensions are 12cm long x 8cm wide o.a.

### Harms

economy 200 914 \$24.95

Classic all stainless steel bull holder. Length 19cm.
