

Milk-Easy Teat Cup Spacer

each 204 598 \$19.95

This one is from the USA, where dairyman Gary Johnston developed the 'Milk-Easy', to take the place of milk-cup weights, or hand-weighting to milk out those slow quarters. Just slip the Milk-Easy Spacer on top of the cup for the slow quarter, and it will be finished at the same time as the other three. The Milk-Easy is a loose fit on the cup inflation, but stays on the teat when the cluster is removed (manual or auto removal), due to the soft rubber internal tabs. It is then simply removed from the teat, and rinsed-off ready for the next use. Using two Milk-Easy spacers is ideal for cows with heavy rear quarters, to reduce over-milking (and inherent disease risks) of the front quarters. The Milk-Easy inside diameter is 57mm to fit over inflation top.

Sight Glass

14mm Highline 207 584 \$9.95
16mm Highline 207 586 \$9.95
16mm Lowline 207 588 \$9.95

Pictured: 14mm High-Line Sight Glass

The Topmilk sight glass is a visual end-of-milking indicator. Lets you see the milk clearly at eye level to notice milk colour, quantity and flow. Clears immediately milk flow falls below 0.5 litres/min. Cleans in place. Available in 3 models to fit all machines. Use High-Line when milk is moving up-wards, and Low-Line when moving down-wards. (also ideal for herd test buckets.)

Bucket Stainless Cowbell

7.5 litre 212 153 \$39.95
9.5 litre 212 155 \$46.95
12 litre 212 154 \$64.95

We think these buckets are the best available for the farmer. They are made from 0.6mm-thick 202 grade stainless steel and have a large diameter 'chime' (stand) which makes the bucket more stable, prevents denting of the bottom, and gives a grip to enable controlled pouring from the bucket. Also very well priced. Dimensions (neck width x height o.a.): 7.5L = 250mm x 290mm; 9.5L = 270mm x 320mm; 12L = 320mm x 330mm.

Bucket Stainless Cowbell w Lid

8 litre cpt 212 524 \$39.95
12 litre cpt 212 525 \$49.95
16 litre cpt 212 526 \$59.95

Seamless stainless steel. Pressed seamless bottoms (without grip ring). Sturdy handles which fold outwards to enhance stacking. Lids cover bucket entirely, ensuring debris on top does not enter when removing lid. Finger ring on top folds down. These are very nice buckets at a very good price. (Not volume graduated.)

Teat Cup Stopper

204 597 \$6.95

Simple rubber bung to stop-up that milk cup you have to leave hanging off a 3-titter. Has a handy little loop to tie on a piece of string so you don't lose it. Cheap as!

Milk Billy Stainless Cowbell

2 litre 212 156 \$34.95
5 litre 212 157 \$59.95
10 litre 212 964 \$99.95

Cowbell is a quality brand of stainless steel dairy equipment. These billys are well made, incorporating a wide neck for easy cleaning. Supplied complete with flush-top lid. Dimensions (neck opening x height o.a.): 2L = 95mm x 190mm; 5L = 170mm x 250mm; 10L = 175mm x 280mm.

Milk Strainer Funnel Cowbell

212 958 \$59.95

All stainless steel funnel with integral mesh screen. Ideal for use with our 10L, 20L and 40L milk cans. Top 32cm dia. Neck 13cm dia.

PRICE REDUCED

Milk Can w Lid Cowbell

20 litre cpt 212 965 ~~\$349.00~~ \$299.00
40 litre cpt 212 966 ~~\$449.00~~ \$399.00

These are the real thing - good old fashioned stainless steel milk cans complete with lid. The cans have a strong upstand on the bottom when being rolled or dropped. The side handles are substantial to give a good comfortable grip. The lid is 'umbrella' type that ensures no debris or dust enters the can when it is removed. Good quality. Good value. Dimensions (neck opening x height o.a.): 20L = 200mm x 450mm; 40L = 200mm x 650mm.
