

WEIGHT TAPE....

Weight Tape

| | | |
|-------|---------|---------|
| calf | 209 386 | \$13.95 |
| veal | 207 201 | \$13.95 |
| dairy | 207 195 | \$13.95 |
| beef | 207 193 | \$13.95 |
| goat | 207 198 | \$13.95 |
| pig | 207 200 | \$13.95 |
| horse | 207 199 | \$13.95 |

Standard roll-up fabric tapes.

Calf: especially for Holstein dairy calves from newborn to 280lb (127kg). Available imperial only.

Veal: for estimated weights of veal calves from 65 to 460lb (30- 200kg). (Veal calves are presumed to be heavier than dairy at same age.) Available imperial only.

Dairy: three scales for different breeds - jersey, guernsey and holstein. Weights 30 to 800kg.

Beef: three scales for different body conditions from thin to fat. Weights up to 700kg.

Goat: weights up to 88kg (105cm girth).

Pig: measures both body length and girth to get more accurate measure. Weights from 125lb to 260lb (53-118kg) but available in imperial only.

Horse: to measure height in hands as well as estimate weight of ponies and horses up to 600kg.

Auto Rewind

cattle and pig 208 908 \$29.95

Perfect pocket-size weight tape. Plastic case with button-operated auto-rewind. Marked for liveweight and carcass weight of pigs. Also liveweights of normal cattle and fat cattle. Tape markings are in German, so for your clarification here: Schweine/ Porcs = pigs. Mastvieh Normal = normal condition cattle. Mastvieh Gras = fat cattle. On reverse side of tape is a standard metric measuring tape to 2.5m. Tape case is 7cm diameter.

Drench Pump Plastic

202 292 \$145.00

Robust all-plastic pump useful for volume drenching, uterine flushing or other veterinary pumping tasks. Castellated foot valve prevents suctioning to bottom of container. Outlet nipple to fit 10-15mm i.d. tubing. Pump is 50cm high o.a. and delivers 400ml per stroke (up and down each).

Drench Pump Chrome Brass

202 289 \$149.00

Chromed brass pump can be used for administration of large volume oral remedies, or for other volume-pumping requirements. A continuous flow is achieved as the device pumps on both upward and downward strokes. The castellated foot device prevents suctioning to container bottom, and also has a nipple suitable for connection of a 10mm suction tube. The outlet nipple will fit tubing from 10-15mm. Pump is 40cm high o.a. (closed) and delivers 120ml per stroke (up and down each).

Note: Care must be taken with volume drenching or flushing of livestock. Use only under the instruction and supervision of a veterinarian.

Imperial to Metric conversion chart

| Diameter | | Length | |
|----------|------|--------|------|
| gauge | mm | inch | mm |
| 30 | 0.30 | 1/8 | 3.1 |
| 28 | 0.35 | 1/4 | 6.2 |
| 27 | 0.40 | 5/16 | 7.8 |
| 26 | 0.45 | 3/8 | 9.4 |
| 25 | 0.50 | 1/2 | 12.5 |
| 24 | 0.55 | 5/8 | 16 |
| 23 | 0.60 | 3/4 | 19 |
| 22 | 0.70 | 7/8 | 22 |
| 21 | 0.80 | 1 | 25 |
| 20 | 0.90 | 1 1/4 | 31 |
| 19 | 1.0 | 1 1/2 | 38 |
| 18 | 1.2 | 1 3/4 | 44 |
| 17 | 1.4 | 2 | 50 |
| 16 | 1.6 | 2 1/4 | 57 |
| 15 | 1.8 | 2 1/2 | 63 |
| 14 | 2.0 | 2 3/4 | 69 |
| 13 | 2.4 | 3 | 75 |
| 12 | 2.8 | 3 1/4 | 82 |
| 11 | 3.0 | 3 1/2 | 88 |
| 10 | 3.5 | 4 | 100 |
| 8 | 4.0 | 4 1/4 | 106 |
| | | 4 1/2 | 113 |
| | | 5 | 125 |
| | | 6 | 150 |

Note: higher gauge figure is a smaller diameter.

Flutter Valve Semi-disposable

202 913 \$6.95

Low-cost semi-disposable flutter valve with plastic air-inlet spike-end for easy connection. 1.3m long PVC tube. Needle not included.

Flutter Valve Set

set complete 202 914 \$22.95

This high quality flutter valve set is made completely of silicone rubber. This means it will not perish and glue itself together when not used for 9 months. Nor will the tubing develop creases which prevent full-flow. Fully transparent to see progress of infusion. Length 1.3m. Set includes 14g x 2"(5cm) Monoject milk fever needle.

Needle Milk Fever Monoject

14g x 2" 204 758 \$1.90

Monoject milk fever needle in individual sterile recloseable pack. Quality stainless steel with alloy hub. Needle size 14g x 2".

Needle Milk Fever Long

14g x 3 1/4" 204 757 \$1.20

Longer needle for intravenous use. Plastic hub. Individual sterile pack.

Pour-on Bottle Simcro

500ml 213 728 \$12.95

Pour-on application can be very tedious for the small-block operator. Cleaning guns and back-packs after treating a small number of stock is time consuming. Simcro's new bottle applicator is the answer. Fill with up to 500ml of pour-on. Set the dose ring to the required level, up to 25ml. Squeeze the bottle to fill the cap. The valve automatically levels the volume to the required amount. Pour on to the animal. Squeeze again for the next dose. How simple is that?
