

Sheep Restrainer Gambrel

small (red) ea 209 928 \$16.95
large (gold) ea 209 929 \$16.95

The Gambrel restrainer is the ideal way to simply and humanely restrain any sheep. It can be used again and again, and is ideal for foot trimming, lambing, transportation, and any holding job. Sheep can still even feed when restrained. To apply, hold the sheep on its side and hook the restrainer on to one front leg. Pull the restrainer over the nape of the neck and hook in other leg. The cord is then slipped under the neck and into the special side hooks. Dead easy. The Gambrel restrainer can also be used on goats and calves. The small gambrel is 14cm and the large 20cm, leg hook to leg hook centres. Supplied as each.

PRICE REDUCED

Book "A Way of Life"
200 835 ~~\$79.95~~ \$69.95

Glyn Jones is an outstanding trainer of sheep dogs in the UK. He treats every dog as an individual. A Way of Life explains the evolution of his system and art, and gives full details of rearing, training and using working dogs. Hard cover with 175 pages full of photographs and diagrams.

Lambing Rope Lightweight Pair

209 915 \$29.95

Lightweight 4mm dia. nylon rope with eye splices both ends, sealed for durability. Length 1.5mm o.a. Supplied as a pair (two ropes).

Docking Iron Primus

POL adaptor 201 717 \$24.95

Cautery (heat) docking of lambs is the safest and least traumatic method. It is quick and easy, sealing off the blood vessels as the tail is cut through. The reduced stress and blood loss improves growth rate and reduces mothering time. The Primus Docking Iron is designed and made in Australia. It uses gas from a normal (BBQ, etc) portable gas cylinder (not supplied). A 4m delivery hose is supplied. The Iron is not self lighting. Allow it to heat for at least 2 minutes before using. Adjust the heat to an appropriate temperature which cuts easily and effectively seals all blood vessels. Cutting should take about 2 seconds to give the best results. Keep the cutting blade clean with the wire brush supplied. A spare gas nipple is supplied, along with full user instructions, and a parts list and diagram. All parts are available.

Note: The POL adaptor is required for standard 9kg LPG cylinder.

Gestation Calendar Ewe

203 185 \$26.95

Even experienced breeders will find this simple rotating chart handy. Just set the inner disc to breeding date, and all other important dates are indicated. These include: begin flushing, breed date, first lambing, last lambing, lamb weigh dates, etc. Calendar is 22cm square o.a. Waterproof materials.

Gestation Calendar Goat

213 037 \$26.95

Even experienced breeders will find this simple rotating chart handy. Just set the inner disc to breeding date, and all other important dates are indicated. Calendar is 22cm square o.a. All waterproof materials.

Lamb Feeder Excal

complete 207 500 \$7.95
repl't teat only 204 195 \$2.00

The Excal lamb feeder is well known in New Zealand and Australia. The bottle is lightweight 1-litre capacity. Air inlet is via the small valve mounted in the handle cavity. It can be covered with thumb or finger to slow-up drinking rate, if desired.

Lamb/Kid Feeder Excal

complete 207 494 \$7.95
repl't teat only 211 914 \$2.35

The lamb/kid feeding teat is heavier-duty than the lamb feeding version. The teat is longer, and thicker to ensure longer life under heavy use. The bottle is lightweight 1-litre capacity, with 30mm cap. Air inlet is via the small valve in the handle cavity, which can also be used to control the milk flow if desired.

Lamb Feeder Easy Feeder (1-speed)

complete 207 496 \$19.95
teat only 211 672 \$3.25

Feed several lambs on one bottle-full with our 2.5 litre Easy Feeder. This bottle uses our popular 'Little Softy' teat.
