

POULTRY DRINKER...

Crown Small Chicks

1 litre 211 562 \$7.95

The Crown Chicks drinker jar is simply threaded on to the 15cm-diameter base to make a small but stable drinker.

Straight

3 litre 205 200 \$9.95
5 litre 205 201 \$12.95
10 litre 205 199 \$23.95

All-plastic atmospheric column type poultry water dishes. To fill, invert and remove base. Reattach base and set right way up. Air pressure supports the water column. As water is taken from the dish, air enters the chamber and water is let out.

Note: These drinkers are not UV resistant.

PRICE REDUCED

Handle-type

5 litre 205 203 ~~\$29.95~~ \$26.95
10 litre 205 202 ~~\$33.95~~ \$32.95

Function of these is the same as for the plain column drinkers above, but with the added feature of a carry-handle incorporated. This entails not just a handle, but a more complex dish-attachment mechanism, which enables the drinker to be easily lifted and moved, without coming apart or losing water. Well worth the extra cost if you need to move the drinker regularly.

Note: These drinkers are not UV resistant. Try and keep out of direct sunlight.

Little Giant

12 litre 212 431 \$99.95
20 litre 212 432 \$129.00

Large-capacity heavy-duty dent-proof drinkers from Little Giant, USA. These drinkers are easy to carry when full, with the big easy-grip cap handle. The cap screws securely onto the container with a large-section thread, and seals on an o-ring. A small screw-on cap is located on the container side, but is screwed on to the water outlet to stop leakage when the unit is being carried and filled. The container snaps into the plastic base.

PRICE REDUCED

Crown Header Tank

complete 212 248 ~~\$79.95~~ \$59.95

This complete Crown tank assembly is useful as a dosing tank or similar. It comprises of a 20 litre plastic tank with an auto-fill float valve and delivery line at top, and an outlet spigot and delivery tube at the bottom. Ideal mounting height is between 1.5m and 3m above level of drinkers. Use in low pressure supply only.

Crown Delivery Line Assy

212 236 \$12.95

As supplied with Crown auto-fill drinkers. Comprising 1.5m of delivery tube with connector nut one end and pipe connector on other. The pipe connector also incorporates an on/off valve, and is suitable for connection on any 15mm or 20mm water pipe.

Crown Float Valve only

212 249 \$8.95

Complete float assembly as standard in all Crown drinkers.

Crown Tank Spigot Assy

212 250 \$7.95

This assembly is ideal for use in any plastic jerry can or tank container to create a pressure reducing header tank. (Ideal also with the Crown float valve assembly.) Drill a 13mm hole near the bottom of the container. Thread is standard Crown water-line coupling.

Crown Tube 'T' only

each 212 252 \$1.45

'T' connector for assembly of Crown drinkers water lines.

Crown Trough Auto-fill

68cm 211 787 \$39.95

The Crown Auto-fill flip-top trough uses the standard Crown float valve and pipe connector system to make a versatile drinker with lots of bird space. Length 68cm o.a.

Crown Dual-Trough Auto-fill

60cm 212 241 \$39.95

This Crown flip-top drinker features a divided trough - half-n-half water and feed. The roof also has spikes to reduce perching of non-drinking birds. This trough is more suitable for smaller chicks. Combination waterer and feeder. The first part of the trough is a water bowl, then the further part is a feed trough. Usual Crown float valve, 1.5m delivery line and pipe connector.

PRICE REDUCED

Poultry Ballast Drinker Automatic

205 160 ~~\$79.95~~ only \$69.95

Big suspension drinker working on the ballasting principle. As water is taken, the load lightens and the valve system lets water in again. This drinker is ideal for up to 300 chicks, or 150 layers, or as a home-breeder waterer. 10mm water connection. Adjustable water level. Dish diameter is 37cm and height is 55cm overall. Working pressure from 0.2 to 0.5 bar (3 to 8 psi).

Bird Cage Drinker

200 420 \$26.95

Particularly suitable for use with caged birds, but possibly suitable for small animals also. This automatic drinker is connected to a 8-10mm water tube. It has an integral float control. The whole assembly is easily and simply taken apart for cleaning of water trough. Very practical. Suit cage opening 15cm x 8cm. Simply clip on. Gravity or other low-pressure supply only.
