CLIPPER HEINIGER....

HEINIGER ELECTRIC CLIPPERS

Swiss company Heiniger is a well known manufacturer of high quality equipment, particularly for sheep shearing and management. Using this experience, Heiniger have developed a range of high quality, reasonably priced, electric clippers.

All Heiniger clippers feature unbreakable and lightweight glass-fibre-filled polyamide motor housings. Power cables are 5 metres long, with a flexible protective sleeve to prevent damage at the clipper entry point. A patented Heiniger feature on all clippers is the adjustable blade tension system. All Heiniger clippers are supplied in a compartmentalized protective carry case, and include blades, clipper screw driver, lubricating oil and cleaning brush.

Cordless 7.2v

complete 210 649 \$1,179.00
extra battery 210 650 \$325.00

The Heiniger Cordless clipper is the ultimate in versatility, giving one hour of non-stop clipping on a fully charged battery. A flat battery will be recharged in one hour, ensuring you have no gaps in clipping work. The cordless clipper is no heavier than a cord clipper, but versatility is increased dramatically. Motor power is 35W. Cutting speed is 2,100 rpm. Handpiece weight is 1.2kg.

NB: The Cordless clipper is supplied with two rechargeable batteries and a 240-volt charger.

Delta-3 240v

complete 210 651 \$949.00

The Heiniger Delta-3 features three clipping speeds for greatest versatility. At lower speeds the clipper runs quieter and smoother, ideal for sensitive areas such as head and legs. Full speed can be used for main body-clip areas. Noise output is 77 dB(A). Motor power is 180W making it the most powerful 3-speed clipper on the market. Motor speeds are 2,100, 2,800 and 3,200 rpm. Handpiece weight is 1.32kg.

Machine 240v

complete 210 654 \$979.00

The Heiniger Clipping Machine is the most powerful clipper in the range. It uses the same fan-cooled motor as the proven and dependable Heiniger shearing handpiece, and in fact can be fitted with the standard Heiniger shearing head. The clipper is smooth and super-reliable with a counter-balanced crank movement. The 31F-23 blade supplied gives a close 0.5mm to 1mm finish, ideal for horse clipping. Motor power is 320W running on 240v mains power. Speed is 2,400rpm. Handpiece weight is 1.53kg.

Machine 12v

complete 210 653 \$929.00

This very versatile clipper can be run from any 12-volt battery, providing clipping anywhere, any time. Motor power is 160W, equivalent to a mains-operated clipper. Cutting speed is 2,300 strokes per minute. Running time is 4-5 hours on a fully charged car battery. Handpiece weight is 1.29kg.

Handy 240v

210 647 \$889.00

The Heiniger Handy clipper has been designed to make clipping of nervous or sensitive animals a stress-free, almost silent operation. Motor power is 120 watts running on 240v mains power. Speed is 3,200 rpm. 5m power cord. Handpiece weight is 1.25kg.

All Heiniger clippers are supplied with a fine-cut 31F-23 blade set ideal for horse clipping.

Progress 240v

complete 210 652 \$799.00

The Heiniger Progress clipper is lightweight and comfortable to use. It is quiet running and has a soft rubber grip. Noise output is only 72 dB(A). Motor power is 65W, running on 240 volt mains power. Motor speed is 2,200 rpm. Handpiece weight is 0.93kg. This unit is ideal for owners of 2-4 horses, with lesser clipping demands.

Blade Set

fine 31F-23	212 469	\$125.00
normal 31-23	212 468	\$99.95
coarse 21-23	210 813	\$99.95
surgical 53-23	210 815	\$189.00

The 31F-23 (fine) blade set is supplied standard on all Heiniger clippers. Numbers refer to number of teeth on top and bottom blades (eg 31-15). The 53-23 blade is ideal for freeze branding clipping. The 21-23 blade for tail trimming. These blades also fit most similar clipper brands.

Clipper Comb Set E-Z Guard

set of 3 201 447 \$99.95

These cast-alloy guards have rounded edges to prevent injuries on and from kicking or fractious animals. Assure consistent fast blocking. Fit Oster 510 & 610 Clip Master and Sheep Master models, and other horse clippers of most brands. High quality combs made by Stone Manufacturing Inc., USA. Set of 3 combs, depths 10mm, 13mm and 16mm. Mounting screws are included. Comb dimensions are 80mm wide x 75mm long.
