One of the most annoying things about brushing the dog or cat is the way the brush gets tangled full of hair. The new Snap-n-clean brush is the answer. When the bristles start getting loaded, just pull the base plate off, and all the hair mat comes with it. Shake the hair off, and snap the plate back onto the brush. Simple as can be. As well as the great Snap-n-clean head, these brushes feature a soft-grip santoprene handle. So much easier to hang on to in tough going than a shiny wood or plastic handle. A top brush.
