Radio KYD 16-channel

kit* each 213 224 \$179.00
opt'l mic/speaker 213 225 \$39.95

The KYD is a high-powered two-way radio with exceptional range and clarity, and a compact pocket-size case. At 5 watts output this radio is at the maximum allowed in New Zealand. Range is stated to be 10-12km in good unobstructed conditions. Each set is "Telepermitted" to New Zealand telecommunications standards. KYD is a Korean manufacturer of radios for military and official use, so have excellent credentials for manufacture of this civilian model. The lithium-ion battery will last 30 minutes of transmission time, and is memory-free to ensure full charge and discharge regardless of condition when charged. This KYD radio is guaranteed for 12 months. A separate lapel microphone/speaker is available as an option.

*The radio is supplied as a kit, including 240v base-charger, 12v car charger and lightweight ear piece with microphone and activation button. These accessories allow the radio to be operated outdoors in any conditions, with the radio safely pocketed. Unit is not user programmable.

Dog Parking Hook Stainless

212 728 \$49.95

This sturdy pet parking facility is made from 8mm-diameter stainless steel rod mounted on a 11cm x 17cm painted and sign-written stainless backing plate. This is a quality fitting for any clinic or premises.
